Recognized by the Transplant Committee
of the Council of Europe

Barcelona, Spain
November 24th - 28th, 2008

TPM

*Transplant
Procurement
Management*

www.tpm.org

PRESENTATION

A technical and scientific training program to get you involved with the organ and tissue donation and transplantation process at the national, European and world-wide level.

OBJECTIVES

- To conceptualize the objectives of the donation process.
- To promote direct and efficient application in the own work place.
- To increase the personal and general maturity and awareness of the professionals involved in donation and transplantation.
- To share professional experiences and encourage the creation of international networks.

PARTICIPANTS

- Health professionals organizing the generation of donors for transplantation.
- Transplant coordinators wishing to update their knowledge and reinforce their skills.
- Health staff due to join a Transplant Coordination Office.
- Health managers who are in charge of transplant programs.

FACULTY MEMBERS

National and International health professionals with a high level of expertise in the donation and transplantation field. Considering their teaching experience, they will guide participants and provide them with personalized feed-back through lectures, practical simulations and discussions.

ACADEMIC QUALIFICATION

A diploma issued by IL3 (Institute for LifeLong Learning) – Universitat de Barcelona will be awarded after the course.

LENGTH AND DATES

40 hours (theory, practice and simulations)

November 24th - 28th, 2008

PROGRAM

Theoretical-scientific Program

Detection, identification and selection of donors

Death diagnosis

Donor management

Organ and tissue viability studies

Family approach for organ donation

Organ sharing and allocation

Multi-organic retrieval

Non heart beating donors (DCD)

Organ preservation techniques

Living donation

Tissue procurement, processing and distribution

Ethics and legislation

Public education and mass media

Organizational Contents

Evaluation of the donation-transplant process

Organization of a Transplant Coordination Office

Costs of donation and transplantation

Quality systems

Organizational models

METHODOLOGY AND STRUCTURE

Based on learning through experience, acknowledging that practice improves theory.

Theoretical conceptualization before the course

Active participation in class

Case methodology

Simulation exercises in baskets

Action learning

Interactive learning process

Outdoor training

Teaching manual

Virtual activities

Post-course follow-up (www.tpm.org)
